

ONE SOLUTION TO ALIGN YOUR LEGAL UNIVERSE

doe COLLECT

Managed, Safe Forensics Control

"Our clients are seeking a full-service electronic discovery solution to handle secure, defensible collections through final production. By building strategic alliances with the leading tools, we are now poised to offer this complete EDRM model solution - doeDiscovery. Our forensics experts ensure that the litigation information you have will be ready when you need it."

-Tom Russo, CEO & President

- Secures the information correctly starting with proven forensics experts. Defensible collections reduce risk and court penalties.
- Delivers cost-reducing strategies that eliminate duplicate data and unnecessary files from the collection process.
- Provides complete data control throughout the collection process.
- Integrates industry and court recognized leading tools with the renowned expertise of one of the leading eDiscovery service providers; providing one point of access and one point of support.
- 24/7 support helps your legal department staff stay focused on the job, not overseeing your litigation collection.

doeLegal understands your goal is to improve efficiency while lowering risk. Ours is to make that possible for you. Providing innovative, cost-effective solutions is our corporate mission. Your data management deserves a true "Trusted Adviser" that has the experience and expertise you require to handle your litigation collection.

We specialize in delivering effective, safe, and secure solutions to manage the increasing challenges of billing, litigation support, collaborative data sharing, daily communications, and case control.

Our highly-qualified solutions are ready. Call today at 302-798-7500 to learn more.

Renew Your Peace of Mind With More Managed Control - The All-In-One Solution That Matters

Regardless of the source

our team of forensic experts is ready to safeguard your ESI through a more managed data collection process.

Eliminate the risks

of file spoliation and court assessed fees due to a poorly executed collection.

Collect only what you need

to reduce your collection and review expenses. Utilizing a pre-culling process, you only collect real data files, not fluff.
