## Easily configure Ascent ELM™ to simplify legal operations and deliver business insights where you need them

### Empower the user experience

Never be limited by having to change the way you work because your software can't keep up. Ascent ELM's intuitive user interface allows you to navigate and customize what you see and how you see it, enabling teams to work smarter, not harder. All ELM solution capabilities are available in a hosted position and through the SmartLink™ Outlook Integration module to match where you work.

### Enable business transparency

Analyzing and viewing your most critical business data in one place informs timely decisions. Don't spend hours scouring through lengthy reports from multiple sources to find answers. The SmartView™ analytic dashboard provides graphical views of key data at a glance. You can compare real-time matter, spend, and law firm data from one collaborative system to take informed action.

### Ask complicated questions easily

Ascent ELM captures all aspects of any matter and allows teams to ask complex queries and get credible responses. The new Query Builder™ simplifies how and where you ask these questions and lets you target every piece of information in the system. Valuable capabilities like dynamic filters and user-created calculated fields lets you easily customize the results to fit your needs.

### Receive answers instantly

Business decision rely on credible answers without waiting for someone to assemble a report. Ascent ELM's Report Builder™ lets you easily create reports by using drag and drop fields. Reports use search page enhancements to makes information more useful. Schedule or automatically distribute reports instantly to everyone using SmartView™ analytic dashboard or with one click in Excel.

### Predict and control costs

Fee arrangements should not be limited by your software – only by your creativity. Legal expects flexibility to use what makes sense for your business. Ascent ELM's AFA Wizard™ allows you to create and manage "value-based billing" scenarios, allowing transparent collaboration with outside counsel – putting you in control of vendor billing and fees.
