

Ascent eDiscovery provides law firms and corporate legal departments with the hosted eDiscovery solutions and hands-on support needed to tackle every aspect of the most complex document review projects. In addition to managing everything from the processing of documents to the creation of productions, our eDiscovery experts work with clients to define and implement document strategies that meet three goals:

Minimize the Review Burden | Improve Review Efficiency & Accuracy | Reduce Litigation Costs

Our innovative technologies, knowledgeable subject matter experts and best-in-class services can drastically reduce expenses and streamline processes, improving the efficacy of your efforts -- in turn empowering your team to focus on protecting your client's best interests.
