Questel's Private Tier-3 Data Center

doeLEGAL's experts handle the application configuration and system administration tasks as a part of eDiscovery projects, so your litigation team can focus on reviewing documents, developing case strategies, and protecting clients' best interests.

Comprehensive eDiscovery Services and Support

PROCESSING

Technology ensures your document processing is done correctly to ensure project success. doeLEGAL's eDiscovery specialists will:

- Ingest, normalize and index "raw" data
- De-NIST data and remove system files
- Extract text and metadata
- OCR and image documents, create load files
- Cull documents using search terms, date filters, file types
- De-duplicate documents on global or custodial levels
- Generate search term hit reports

HOSTED DOCUMENT REVIEW

doeLEGAL's on-site, Tier3 data center provides a secure, fully-supported review position that provides:

- View 900+ document types in their "native" format
- OCR and image documents on-the-fly
- Customizable Coding Forms and Tag Palettes
- Document relationships and email threads

MULTILINGUAL TRANSLATION & REVIEW (New!)

Reliable and experienced language services handle organization-wide eDiscovery translations by Morningside:

- 8,000+ certified translators, 200+ languages
- Human Translation and Machine Translation (MT)
- Legal interpretation and transcription

TRAINING & SUPPORT

The Ascent eDiscovery provides:

- Basic & advanced training for end users and application admin
- No-charge technical support during normal business hours
- Expert eDiscovery specialists manage the legal technology

EARLY CASE ASSESSMENT (ECA) & ACTIVE LEARNING (AL)

ECA effectively reduces the review burden by focusing on the most relevant, litigation-related content. doeLEGAL provides support for all ECA operations, including:

- Creating, configuring, and populating ECA databases
- Developing ECA queries, prioritizing of review orders
- Promoting relevant documents to review databases
- AL to reduce and prioritize review order (New!)

ANALYTICS & REPORTING

Analytics and reports deliver accurate and efficient analysis of all hosted eDiscovery projects, at no charge:

- Advanced/complex queries and visual searching
- Email threading and document timelines
- Document families, near-duplicates and document comparisons
- Clustering and categorization

PRODUCTIONS CREATION & DELIVERY

Reduce litigation expenses, save valuable time creating productions, and ensure they get delivered to all the appropriate parties.

- Formatting productions according to client specs
- Creating images and/or image placeholders
- Pages numbers, bates labels, date stamps, redactions
- Generating load files, QC productions sets, and delivery

PRICING

doeLEGAL's Ascent eDiscovery pricing consists of three simple, transparent, and predictable fees: **processing** (if necessary), **hosting** (excludes translation & review), and **software licenses**. All other project-related services are included with the hosting fee.
